BAND-IT

THE ULTIMATE BAND FASTENING SYSTEM
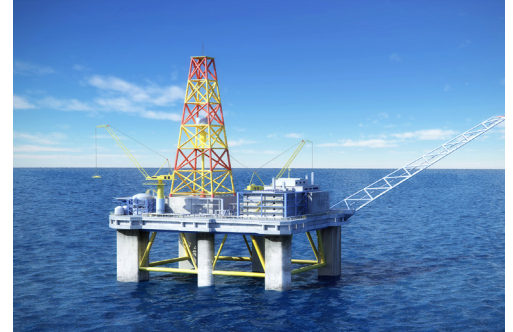

ESSENTIALLY EVERYWHERE

For The Most Demanding Applications, Trust The Quality, Durability And Diverse Fastening Capabilities of BAND-IT

MANUFACTURING & MRO

BAND-IT has a variety of joining and clamping solutions for all areas of a facility (including manufacturing, assembly, tool crib, and grounds) that are secure, easy to install, and corrosion and UV resistant.

OIL & GAS

BAND-IT provides high quality fastening solutions that perform in the extreme environments of downhole ESP cabling, subsea umbilicals and VIV Strakes, and visual identification for frac iron recertification.

WIRELESS INFRASTRUCTURE

BAND-IT products are used in a variety of communications applications to mount, hang and secure cable runs and equipment to antenna towers. With a growing telecommunications industry, BAND-IT supplies engineered fastening solutions that continue to build the global network infrastructure, outdoor poles and towers.

FOOD & BEVERAGE PROCESSING

Manufactured to meet or exceed food handling requirements, we offer products for storage, fluid transfer, fermentation, sanitation, and visual identification.

MUNICIPAL

BAND-IT has a complete line of traffic management products to securely mount signage, traffic signals, banners, traffic monitoring systems, communication boxes, motion sensors and traffic cameras.

ELECTRICAL

Whether you need to securely mount electrical equipment boxes to cable trays, poles, or towers or manage cable runs, BAND-IT has extreme duty products that also deter theft and tampering.

AMUSEMENT PARKS

You develop the iconic rides with out of the box thinking and creativity. BAND-IT's team of engineers are right there with you solving your joining, clamping, and mounting problems unique to theme park attractions.
